Better health through a healthy environment

The mission of Health and Environment Alliance

The **Health and Environment Alliance (HEAL)** is the leading European not-for-profit organisation addressing how the environment affects health in the European Union. We demonstrate how policy changes can help protect health and enhance people's quality of life.

Who may join HEAL

Membership to HEAL is open to non-governmental organisations and other not-for-profit organisations and professional bodies, whether local, regional, national, European or international. Applicants must be legally constituted pursuant to the laws and customs of their country of origin; have no profit-making purpose; and be independent of governments, political parties and commercial interests.

Two types of membership categories exist:

Full Members: Non-governmental organisations for which environment and health links are a major area of interest. Full members have two votes at the Annual General Assembly.

Associate Members: Other not for profit organisations and professional bodies, such as educational and academic institutions; professional associations; statutory and non-statutory environment or health agencies; and regional, city and local authorities. Associate members have one vote at the Annual General Assembly.

Membership Fees

The standard HEAL membership fee is **€300 per year**.

For organisations from the Central and Eastern EU Member States (Poland, Hungary, Bulgaria, Romania, Malta, Cyprus, Slovenia, Estonia, Lithuania, Latvia, Czech Republic, Slovakia) HEAL offers a phased approach to the membership fee, wherein **the 2011 fee is €100** and each subsequent year the fee will increase by €50 until the standard fee is reached.

Membership Application Form

To apply for membership, **please complete the form below and post it back to us with your organisations Statutes and Annual Accounts** to HEAL at 28 Boulevard Charlemagne, B-1000 Brussels – Belgium.
